**Being Two
2013-2015**

A DfE funded project with Pen Green

Through working with Pen Green on developing practice, Linda Downing, manager of a local pre-school ‘Chirpy Chicks’ said,

‘My own Professional Development and consequential changes to thinking and practice have had positive impacts on children, their families and my whole staff team. Specifically, being introduced and involved in the ‘Making Children’s Learning Visible’ (MCLV) has greatly influenced the way that we are going to assess and track children’s progress in the future.’

Being Two

We would like to invite you to work with us on the Pen Green 'Being Two' project funded by DfE which will run from July 2013 – March 2015. The focus for the project is to develop ways of working effectively with children and families accessing the Two Year Old Entitlement offer.

What will being part of the project entail?

- Professional development support for all your practitioners in the form of training, project work and support visits
- Video workshop/support
- Support on working with parents and assessing children's learning so that the children's progress can be shared and celebrated
- Celebrating outcomes for children and parents in ways that will impress Ofsted!

Enhancing your Two Year Old Offer

We are developing a network of settings and childminders who will be taking part in the project so that ideas can be shared and local support can be identified. We are involving health workers and family support workers from children centres who are available to work with settings.

As part of the project we will be offering you new training materials and up to date information about the Two Year Old Entitlement.

The training is free on the understanding that you commit to the whole programme which includes:

- 1 day training on.....
- Twilight network meetings
- Project work in your setting with the whole team

Outcomes for Staff:

- Increased confidence in making professional judgments
- Deeper knowledge of EYFS
- Increased pedagogical dialogue and reflection
- Increased dialogue between workers and parents
- More rigorous and systematic assessment data
